PROFILE OF THE REGION

Montréal, just perfect
Steps away from Montréal

Montréal, derived from the Latin form of the name Mont-Royal (mons regius) is named after the five hills that form the range between the island of Montreal and the Appalachian Mountains. This 11,000 km² territory has been a focal point of historical events that have shaped today's Quebec. Discover the wealth of the four different areas of the region: Suroît, South Shore, the Richelieu River, and Montréal-Est.

The witness to a rich history

From its very beginnings, the Montréal region was favored for its fertile land and network of waterways, notably the Richelieu and Yamaska Rivers. The Richelieu River crosses through the region more than a hundred kilometers from south to north, and links Lake Champlain, which straddles the Canada-US border, to the St. Lawrence. To defend this preferred route used by First Nations and US troops, several fortifications (Fort Chambly, Fort Lennox, Fort Richelieu, and Fort Saint-Jean) were built over time on the Richelieu river banks.

The Richelieu River route that was used in the past for trade, First Nations transportation and military purposes, has played an important role in the history and development of not only the Montréal region, but also for the province of Quebec and all of North America. To commemorate this historic fact, the **Richelieu Tourist route** was officially created in 2012. Rich in history, the region now has one of the most diverse cultural mosaics in Quebec.

Proud of its innovations

From the second half of the nineteenth century, the construction of the Chambly Canal and locks leads to an increase of trade, particularly with the states of Vermont and New York bordering the territory to the south. The region also saw the birth of Canada's first railway between La Prairie and Saint-Jean-sur-Richelieu and the first international railway between Longueuil and Portland.

Enjoy a leisurely drive near the US border to discover the oldest covered bridge in Canada, Powerscourt, built in 1861. It is also in this sector of the Montérégie, in the Suroît area where the first canal in North America was excavated in Coteau-du-Lac.

Montérégie is proud to have in its territory two World Biosphere Reserves: **Lac Saint-Pierre Biosphere Reserve** in Sorel sector and the **Mont Saint-Hilaire Biosphere Reserve**. Recognized by UNESCO, they are ecologically vital as they work to promote sustainable development and biodiversity conservation.

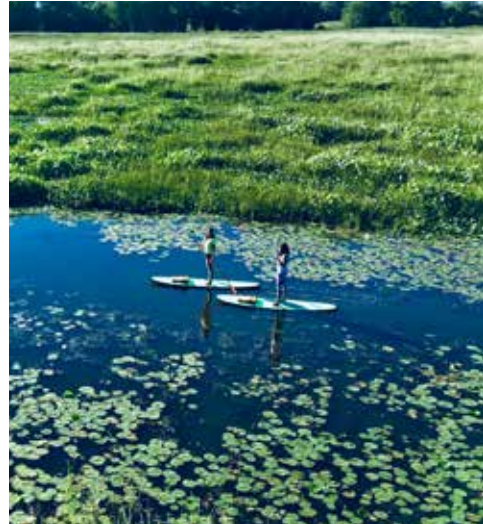

Locally rich

Montérégie invites you to indulge in tasty discoveries! The producers of the Montérégie, passionate and proud about their skills, open their doors to all. The Montérégie is the best region in Québec for the production of cider and apples, offering the outstanding **Cider Route**, a trail to discover the many cider mills in the region. The Montérégie is also at the forefront of ice cider production.

Wine lovers, the region's many vineyards await you with open arms and invite you to sip and taste their amazing Quebec-made wines. The Montérégie **Wine Route** offers a delicious adventure where red, white, rosé, sparkling, ice wines, and fortified wines are featured.

The area also holds the title of «gourmet destination par excellence», especially in the spring and syrup season. Montérégie is also the region where we find the greatest number of maple products for tourism.

Montérégie MY getaway region ...steps away from Montréal!

SUROÏT

The Suroît is a rural and peaceful region whose geography is marked by the omnipresence of water. This territory is sure to appeal to nature lovers, who are seduced by the many outdoor activities offered.

The Richelieu River that flows through the municipality is the largest navigable waterway in Quebec, and has become a source of pleasure for fans of water activities who can cross the entire length of Lake Champlain to Sorel. The many historical homes and sites are a study of our history and are a treasure for the municipality, including the Odelltown Methodist Church, built in 1823, that witnessed the battle of 1838 between patriots and loyalists militias at Lacolle station. The municipality is crossed by a bicycle path called the Piste du Lièvre (Rabbit Run) that has linked route 223 and the Vallée des Forts route since 2010. It also connects Saint-Jean-sur-Richelieu to bicycle trails in New York and Vermont.

TRAVELLING IN QUÉBEC

Bars, casinos and purchasing alcohol

You must be at least 18 years old to enter bars, pubs, nightclubs and casinos, as well as to purchase or consume alcohol (be prepared to produce ID if asked). Wines and spirits are sold through the *Société des alcools du Québec* (SAQ), the provincial liquor board. Beer is available at grocery and convenience stores, which also stock a limited selection of wines.

Currency exchange

There are numerous exchange offices in Québec's main urban centres. Airports also offer exchange services. Some businesses accept American money, but tend to offer a less competitive rate than the exchange offices.

Driving in Québec

Since Canada uses the metric system, speed limits and distances are posted in kilometres per hour (km/h) and gasoline is sold by the litre (l).

Cell phones

Use of a hand-held cell phone that does not have a hands-free function is prohibited while driving.

Road conditions

For information on road conditions or other aspects of trip-planning, call 511 or 1 888 355-0511, or visit quebec511.info.

Winter tires

From December 15 to March 15, all taxis and passenger vehicles registered in Québec must be equipped with winter tires. This requirement also applies to rental passenger vehicles in Québec.

Tourist routes

The official tourist routes are clearly marked with blue signs. They are designed to highlight the attractions of the regions through which they pass, and to enable visitors to discover the extent of Québec's natural and cultural treasures. quebecoriginal.com/tourist-routes

Tourist signage

In Québec, tourist regions and directions to services, attractions and activities are indicated by blue road signs. For more information, visit panneaubleu.com and tourisme.gouv.qc.ca/signalisation (in French only).

Village-relais

If you feel like taking a break or require assistance while on the road, look for the *Village-relais* signs. These point to towns that, together with local businesses, offer a range of accredited services and a safe and pleasant place to stop. villages-relais.qc.ca

Voltage

In Québec, the standard voltage is 110 volts/60 cycles, as it is throughout North America. Since the outlets cannot accommodate European plugs, you will need to bring or buy an adaptor.

Making a comment or conveying dissatisfaction

If you wish to comment on or are dissatisfied with the tourism services you received in Québec, please contact:

Alliance de l'industrie touristique du Québec

1 877 686-8358, option 7

comment@alliancetouristique.com

Canadian currency

The legal currency in Québec is the Canadian dollar (CAD), which is divided into 100 cents. Bank notes are available in denominations of 5, 10, 20, 50 and 100 dollars, and coins in denominations of 5, 10 and 25 cents as well as 1 and 2 dollars. Bank cards and major credit cards are also accepted almost everywhere.

Tipping

Tipping is customary in restaurants, bars and taxis. The amount, which is not included in the bill, is generally equivalent to 15% of the total bill before taxes. For quick tip calculations, Québécois normally add up both taxes. Tipping bellhops or porters is at your discretion (generally, \$1 per bag).

Taxes

Québec has two taxes: the 5% federal goods and services tax (GST), of 5%, and the 9.975% Québec sales tax (QST). An accommodation tax of 3.5% of the room price per night also applies in our region.
